

Dear Sirs; I respectfully urge the FCC to reject the NAB's petition 04-160 on the grounds that this is a poorly disguised attempt by the NAB to wrestle control of a service from a successful provider. I pay for the priveledge of listening to XM broadcasts...weather and traffic included...and resent the NAB from taking that away.

I pay for XM to avoid the constant interruptions by commercial sponsors...the NAB petition would take this away and 'force' me to listen to commercial broadcasts to obtain important weather and traffic information. It is my right to pay for a commercial service that offers me what I want without silly or obnoxious commercials.

I urge you to reject the NAB petition 03-160 and allow the free market to provide services that subscribers are willing to pay for. If the NAB feels they are losing market share to XM radio, they are most likely right...we are becomming fed up with free commercial radio and want an alternative.

Please don't allow NAB to take that away from us.

Thank you,  
Sincerely,  
Roger C Henderson
